Digital Transformation Agency

Section 1: Entity overview and resources

1.1 Strategic direction statement

The purpose of the Digital Transformation Agency (DTA) is to provide digital and ICT strategy and policy leadership, investment advice, strategic sourcing and delivery oversight to drive the government's digital transformation and deliver benefits to all Australians.

The DTA:

- provides strategic and policy leadership on whole-of-government and shared ICT investments and digital service delivery, including sourcing and capability development
- delivers architectural policies, standards, and platforms for whole-of-government and shared digital and ICT service delivery
- provides advice to agencies and the Australian Government on digital and ICT investment proposals
- assure significant digital and ICT investments through the digital oversight framework and monitor and advise of the effectiveness of the whole-of-government digital portfolio.

In 2023-24, the DTA will focus on the following strategic objectives:

- lead the government's digital transformation strategy through our co-delivery of the Data and Digital Government Strategy and Implementation Plans
- oversee the short, medium and long-term whole-of-government digital and ICT investment portfolio
- manage whole-of-government digital and ICT strategic sourcing and contracts
- be a valued employer with the expertise to achieve our purpose.

Further details on how we will deliver these priorities can be found in our Corporate Plan located at: <u>www.dta.gov.au/about-us/reporting-and-plans/corporate-plans</u>.

1.2 Entity resource statement

Table 1.1 shows the total funding from all sources available to the entity for its operations and to deliver programs and services on behalf of the Government.

The table summarises how resources will be applied by outcome (government strategic policy objectives) and by administered (on behalf of the Government or the public) and departmental (for the entity's operations) classification.

For more detailed information on special accounts and special appropriations, please refer to the *Budget Paper No. 4 – Agency Resourcing*.

Information in this table is presented on a resourcing (that is, appropriations/cash available) basis, whilst the 'Budgeted expenses by Outcome 1' tables in Section 2 and the financial statements in Section 3 are presented on an accrual basis.

a) The lead entity for measure titled *Next Steps for Digital ID* is the Department of Finance. The full measure description and package details appear in the Budget Paper No. 2 under the Finance portfolio.

Section 2: Outcomes and planned performance

Government outcomes are the intended results, impacts or consequences of actions by the Government on the Australian community. Commonwealth programs are the primary vehicle by which government entities achieve the intended results of their outcome statements. Entities are required to identify the programs which contribute to government outcomes over the Budget and forward years.

Each outcome is described below together with its related programs. The following provides detailed information on expenses for each outcome and program, further broken down by funding source.

Note:

Performance reporting requirements in the Portfolio Budget Statements are part of the Commonwealth performance framework established by the *Public Governance, Performance and Accountability Act 2013*. It is anticipated that the performance measure described in Portfolio Budget Statements will be read with broader information provided in an entity's corporate plans and annual performance statements – included in Annual Reports - to provide a complete picture of an entity's planned and actual performance.

The most recent corporate plan for Digital Transformation Agency can be found at: <u>www.dta.gov.au/about-us/reporting-and-plans/corporate-plans</u>.

The most recent annual performance statement can be found at: <u>www.dta.gov.au/about-us/reporting-and-plans/annual-reports.</u>

2.1 Budgeted expenses and performance for Outcome 1

Outcome 1: Support the Government's digital transformation, and simplify processes, increase realised value, reduce costs and generate reuse opportunities, through strategic and policy leadership, advice, strategic coordination and oversight of digital and ICT investment, and management of whole-of-government digital and ICT procurement.

Budgeted expenses for Outcome 1

This table shows how much the entity intends to spend (on an accrual basis) on achieving the outcome, broken down by program, as well as by Administered and Departmental funding sources.

a) Estimated expenses incurred in relation to receipts retained under section 74 of the PGPA Act.

b) Expenses not requiring appropriation in the Budget year are made up of depreciation expenses, amortisation expenses, make good expenses, audit fees, and expenses where funding has been previously provided in a prior year.

Note: Departmental appropriation splits and totals are indicative estimates and may change in the course of the budget year as government priorities change.

Table 2.1.2: Performance measure for Outcome 1

Table 2.1.2 details the performance measures for each program associated with Outcome 1. It also provides the related key activities as expressed in the current corporate plan where further detail is provided about the delivery of the activities related to the program, the context in which these activities are delivered and how the performance of these activities will be measured. Where relevant, details of the 2023-24 Budget measures that have created new programs or materially changed existing programs are provided.

Outcome 1 – Support the Government's digital transformation, and simplify processes, increase realised value, reduce costs and generate reuse opportunities, through strategic and policy leadership, advice, strategic coordination and oversight of digital and ICT investment, and management of whole-of-government digital and ICT procurement.

Section 3: Budgeted financial statements

Section 3 presents budgeted financial statements which provide a comprehensive snapshot of entity finances for the 2023-24 budget year, including the impact of budget measures and resourcing on financial statements.

3.1 Budgeted financial statements

3.1.1 Differences between entity resourcing and financial statements

The entity resource statement (Table 1.1) provides a consolidated view of all the resources available to the Digital Transformation Agency in 2023-24. This includes appropriation receivable that is yet to be drawn to cover payables and provisions on the balance sheet. The comprehensive income statement (Table 3.1) shows the operating appropriation provided in 2023-24.

3.1.2 Explanatory notes and analysis of budgeted financial statements

Budgeted revenue from government in 2023-24 is estimated at \$62.0 million, an increase of \$3.5 million compared to the estimate for 2023-24 reported in the 2022-23 October Budget Portfolio Budget Statements.

Budgeted sales of goods and rendering of services in 2023-24 is estimated at \$27.3 million, an increase of \$19.9 million compared to the estimate for 2023-24 reported in the 2022-23 October Budget Portfolio Budget Statements.
