

Pathways to Procurement Program

Nomination/Application Toolkit

Managers of suitable candidates or interested officials themselves may submit an application for the Pathways to Procurement (PtP) Program.

OVERVIEW

The Pathways to Procurement (PtP) program is an initiative designed to enhance procurement and contract management capabilities within the Australian Public Service (APS). It aims to establish a structured and sustainable pathway that supports APS officials who are new to procurement and contract management roles, enabling them to quickly build the necessary skills and knowledge to effectively carry out their responsibilities. The most suitable candidates for PtP program are APS officials who are either transitioning into PCM roles or have been in PCM roles for less than 12 months.

The program incorporates procurement and contract management training modules developed and delivered by Finance, a Certificate IV in Procurement and Contracting delivered by a Registered Training Organisation, and additional professional content.

Training sessions will be held at:
