GUIDANCE

The Primary Reporting Information and Management Information Aid (PRIMA) Financial Statements detail the disclosures recommended in the financial statements of reporting entities. For policy and guidance on financial statement disclosure requirements, entities should refer to Resource Management Guide (RMG) No 125, *Commonwealth Entities Financial Statements Guide*, the *Public Governance, Performance and Accountability (Financial Reporting) Rule 2015* (FRR) and/or the applicable Australian Accounting Standard (AAS). Policy and disclosure guidance have been removed from the PRIMA financial statements to reduce duplication.

It is suggested that reporting entities should follow the overall format and structure of PRIMA. However it is not mandatory, and so entities are encouraged to use professional judgement to modify disclosures to best suit the circumstances of their entity. This includes judgement in:

- the ordering of notes to reflect focus areas of most relevance to the entity;
- changes to font and table orientation;
- using the primary statements rather than the notes (e.g. an entity might not want to include information in a note if the note simply restates information from the primary statements);
- amending disclosures such that they reflect the nature of the entity, its activities, financial results and position as at the reporting date, including the explanation of significant accounting policies and key judgements;
- additional line items, headings and sub-totals when it is necessary, or would assist readers, to understand the entity's financial results; and
- using graphs and tables to communicate key results, movements or variances.

Unless otherwise stated in the FRR or the applicable AAS, all disclosures are subject to materiality. For guidance on materiality, please refer to the RMG125 - *Commonwealth Entities Financial Statements Guide* and/or the applicable AAS.

Entities are reminded that they may:

- exclude components of the PRIMA Forms that are not relevant to their operations or where no activity in either the current or previous financial reporting period has taken place, unless inclusion is mandatory under the FRR; and
- aggregate line items that are not material.

The PRIMA financial statements do not contain all disclosures required under the accounting standards as applicable to individual reporting entities. For example, reporting entities with non-controlling interests or discontinued operations are required to report additional line items within the primary financial statements. Entities may also report additional line items and/or notes to that contained in the PRIMA financial statements.

Entities may wish to discuss the above principles with their auditors when preparing the entity's financial statements.

Entities will need to replace the example financial year with the current financial year and the comparative Financial year (being the previous year). **Entities can change the years in Cells F3 and F4 on the Contents tab.**

- 8.2 Assets Held in Trust
- 8.3 Restructuring
- 8.4 Reporting of Outcomes

PRIMA non-corporate Commonwealth entity**STATEMENT BY THE ACCOUNTABLE AUTHORITY AND CHIEF FINANCIAL OFFICER**

In our opinion, the attached financial statements for the year ended 30 June 20x2 comply with subsection 42(2) of the *Public Governance, Performance and Accountability Act 2013* (PGPA Act), and are based on properly maintained financial records as per subsection 41(2) of the PGPA Act.

In our opinion, at the date of this statement, there are reasonable grounds to believe that the non-corporate Commonwealth entity will be able to pay its debts as and when they fall due.

Accounting Policy***Equity Injections***

Amounts appropriated which are designated as 'equity injections' for a year (less any formal reductions) and Departmental Capital Budgets (DCBs) are recognised directly in contributed equity in that year.

Restructuring of Administrative Arrangements

Net assets received from or relinquished to another Government entity under a restructuring of administrative arrangements are adjusted at their book value directly against contributed equity.

Other Distributions to Owners

The FRR require that distributions to owners be debited to contributed equity unless it is in the nature of a dividend. In 20X1-X2, by agreement with the Department of Finance, the entity [.....].

The above schedule should be read in conjunction with the accompanying notes.

Accounting Policy***Administered Cash Transfers to and from the Official Public Account***

Revenue collected by the entity for use by the Government rather than the entity is administered revenue. Collections are transferred to the Official Public Account (OPA) maintained by the Department of Finance. Conversely, cash is drawn from the OPA to make payments under Parliamentary appropriation on behalf of Government. These transfers to and from the OPA are adjustments to the administered cash held by the entity on behalf of the Government and reported as such in the schedule of administered cash flows and in the administered reconciliation schedule.

This schedule should be read in conjunction with the accompanying notes.			

Overview

Objectives of the Entity (Non-corporate Commonwealth entities only)

The entity is an Australian Government controlled entity. It is a [for-profit/not-for-profit] entity. The objective of the entity is to [.....].

The entity is structured to meet the following outcomes:

Outcome 1: To [.....]

Outcome 2: To [.....]

The continued existence of the entity in its present form and with its present programs is dependent on Government policy and on continuing funding by Parliament for the entity's administration and programs.

Entity activities contributing toward these outcomes are classified as either departmental or administered. Departmental activities involve the use of assets, liabilities, income and expenses controlled or incurred by the entity in its own right. Administered activities involve the management or oversight by the entity, on behalf of the Government, of items controlled or incurred by the Government.

The entity conducts the following administered activities on behalf of the Government: [disclose details]

Objectives of the Entity (Corporate Commonwealth entities only)

The entity is an Australian Government controlled entity. It is a [for-profit/not-for-profit] entity. **The objective of the entity is to [.....].**

The entity is structured to meet the following outcomes:

Outcome 1: To [.....]

Outcome 2: To [.....]

The continued existence of the entity in its present form and with its present programs is dependent on Government policy and on continuing funding by Parliament for the entity's administration and programs.

The Basis of Preparation

The financial statements are general purpose financial statements and are required by [select a relevant act]:

- a) section 42 of the *Public Governance, Performance and Accountability Act 2013* ; and
- b) [other legislation – list as applicable].

The financial statements have been prepared in accordance with:

- a) *Public Governance, Performance and Accountability (Financial Reporting) Rule 2015* (FRR); and
- b) Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) that apply for the reporting period.

The financial statements have been prepared on an accrual basis and in accordance with the historical cost convention, except for certain assets and liabilities at fair value. Except where stated, no allowance is made for the effect of changing prices on the results or the financial position. The financial statements are presented in Australian dollars. [Disclose functional currency if it differs from the presentation currency]

New Accounting Standards [\[Remove disclosure if not applicable\]](#)

Adoption of New Australian Accounting Standard Requirements

[Insert text]

The following amending standards were issued prior to the signing of the statement by the accountable authority and chief financial officer, were applicable to the current reporting period and had a material effect on the entity's financial statements:

Standard/ Interpretation	Nature of change in accounting policy, transitional provisions ¹ , and adjustment to financial statements
[Insert new standards, amending standards and interpretations]	<p>[Insert summary of new standard]</p> <p>The details of the changes in accounting policies and adjustments are disclosed below and in the relevant notes to the financial statements. This amending standard is [amend as needed - not expected to have a material impact] on the entity's financial statements for the current reporting period or future reporting periods.</p>

Future Australian Accounting Standard Requirements [\[Remove disclosure if not applicable\]](#)

The following [new/revised/amending standards and/or interpretations] were issued by the Australian Accounting Standards Board prior to the signing of the statement by the accountable authority and chief financial officer, which are expected to have a material impact on the entity's financial statements for future reporting period(s):

Standard/ Interpretation	Application date for the entity ¹	Nature of impending change/s in accounting policy and likely impact on initial application
[Title of Standard/ Interpretation (the Changes to Standards will be provided by Finance after 30 June)]	[e.g. 1 July 20XX]	<p>[Brief description of the impending change/s in accounting policy (can be sourced from Attachment A to Changes to Standards issued by Finance, CFO Forum presentations; ANAO Client Seminar materials; and materials produced by accounting firms)]</p> <p>Likely impact: [Entity specific discussion (where not yet known/ reasonably estimable state this)]</p>

1. The entity's expected initial application date is when the accounting standard becomes operative at the beginning of the entity's reporting period.

All other [new/revised/amending standards and/or interpretations] that were issued prior to the sign-off date and are applicable to future reporting period(s) are not expected to have a future material impact on the entity's financial statements.

Taxation

The entity is exempt from all forms of taxation except Fringe Benefits Tax (FBT) and the Goods and Services Tax (GST).

Reporting of Administered activities

Administered revenues, expenses, assets, liabilities and cash flows are disclosed in the administered schedules and related notes.

Except where otherwise stated, administered items are accounted for on the same basis and using the same policies as for departmental items, including the application of Australian Accounting Standards.

Events After the Reporting Period

Departmental

On [disclose date], [disclose details of events after the reporting period]. [Disclose an estimate of its financial effect, or a statement that such an estimate cannot be made].

Administered

On [disclose date], [disclose details of events after the reporting period]. [Disclose an estimate of its financial effect, or a statement that such an estimate cannot be made].

Breach of Section 83 of the Constitution

[Note: Each entity needs to determine, after conducting an appropriate risk assessment, whether a disclosure is required with respect to Section 83 of the Constitution. Generally, a Section 83 disclosure would only be required if it was considered that a breach **has occurred or may have occurred (assessed as more likely than not) in the reporting period. Potential breaches which are not assessed as probable (more likely than not) do not require disclosure.**

If an actual breach or probable breach is identified relating to a previous reporting period(s) and this has not previously been disclosed, then the breach should also be reported identifying the relevant period(s) over which the breach occurred.

Disclosures should also include the number and total value of the breach to the extent practicable. Each category of breach should be separately disclosed, along with actions taken to mitigate the risk of the breach reoccurring.]

Financial Performance

This section analyses the financial performance of [Entity] for the year ended 20X2.

1.1 Expenses

	20X2 \$'000	20X1 \$'000
1.1A: Employee benefits		
Wages and salaries	-	-
Superannuation		
Defined contribution plans	-	-
Defined benefit plans	-	-
Leave and other entitlements	-	-
Separation and redundancies	-	-
Total employee benefits	-	-

Accounting Policy

Accounting policies for employee related expenses is contained in the People and relationships section.

1.1B: Suppliers

Goods and services supplied or rendered

Consultants	-	-
Contractors	-	-
Travel	-	-
Inventory consumed	-	-
IT services	-	-
Other	-	-
Total goods and services supplied or rendered	-	-
Goods supplied	-	-
Services rendered	-	-
Total goods and services supplied or rendered	-	-

Other suppliers

Workers compensation expenses	-	-
Short-term leases	-	-
Low value leases	-	-
Variable lease payments	-	-
Total other suppliers	-	-
Total suppliers	-	-

The Entity has short-term lease commitments of \$X,XXX as at 30 June 20X2.

The above lease disclosures should be read in conjunction with the accompanying notes 1.1D, 1.1H, 1.2E, 1.2I, 3.2 and 3.4B.

Accounting Policy

Short-term leases and leases of low-value assets

The Entity has elected not to recognise right-of-use assets and lease liabilities for short-term leases of assets that have a lease term of 12 months or less and leases of low-value assets (less than \$10,000 per asset). The entity recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

	20X2 \$'000	20X1 \$'000
1.1C: Grants		
Australian Government entities (related parties)	-	-
State and Territory Governments	-	-
Local Governments	-	-
[Disclose by category of recipients]	-	-
Total grants	-	-
1.1D: Finance costs		
Loans	-	-
Interest on lease liabilities	-	-
Overdrafts	-	-
Other interest payments	-	-
Unwinding of discount	-	-
Total finance costs	-	-

The above lease disclosures should be read in conjunction with the accompanying notes 1.1B, 1.1H, 1.2E, 1.2I, 3.2 and 3.4B.

Accounting Policy

All borrowing costs are expensed as incurred.

1.1E: Impairment loss on financial instruments

Impairment on trade and other receivables	-	-
Impairment on loans	-	-
Impairment on other debt instruments	-	-
Total impairment on financial instruments	-	-

1.1F: Write-down and impairment of other assets

Impairment of property, plant and equipment	-	-
Impairment on intangible assets	-	-
Impairment of non-current assets held for sale	-	-
Revaluation decrements	-	-
Other	-	-
Total write-down and impairment of other assets	-	-

1.1G: Foreign exchange losses

Speculative	-	-
Non-speculative	-	-
1.1G: Foreign exchange losses	-	-

1.1H: Other expenses

Change in the value of investment properties	-	-
Act of grace payments	-	-
Settlement of litigation	-	-
Losses arising from sale and leaseback of leases	-	-
Other [Describe as appropriate]	-	-
Total other expenses	-	-

The above lease disclosure should be read in conjunction with the accompanying notes 1.1B, 1.1D, 1.2E, 1.2I, 3.2 and 3.4B.

1.1I: Income tax expense (competitive neutrality)

Competitive neutrality (Commonwealth tax equivalent expense)	-	-
Total income tax expense	-	-

Accounting Policy

The [disclose name of the section] of the entity provides services on a for-profit basis and is subject to the Australian Government's Competitive Neutrality Policy. The above amounts have been calculated as being payable to the Australian Government in the form of company income tax under the Income Tax Assessment Acts had they applied. These amounts have been paid or are payable by the entity to the Official Public Account.

1.2 Own-Source Revenue and Gains

	20X2	20X1
	\$'000	\$'000

Own-Source Revenue

1.2A: Revenue from contracts with customers

Sale of goods	-	-
Rendering of services	-	-
Total revenue from contracts with customers	-	-

Disaggregation of revenue from contracts with customers

[Entities are to disaggregate revenue from contracts with customers into categories to enable users of financial statements to understand the nature, amount, timing and uncertainty of income and cash flows. Examples of categories may include type of good or service, type of customer, government program, function of government, type or timing of contract, sales channels, etc. This disclosure requires entity-specific information and should be adapted to the Entity's circumstances. Disclosure by more than one category may be appropriate. Entities may include tabular or other approaches to meet the disclosure requirement. The following three examples are shown to illustrate:]

Major product / service line:

Research services	-	-
Regulatory services	-	-
Service delivery	-	-
Construction services	-	-
Sales of inventory	-	-
	-	-

Type of customer:

Australian Government entities (related parties)	-	-
State and Territory Governments	-	-
Non-government entities	-	-
	-	-

Timing of transfer of goods and services:

Over time	-	-
Point in time	-	-
	-	-

Accounting Policy

Revenue from the sale of goods is recognised when control has been transferred to the buyer.

[Entity to disclose overall policies relating to when a contract is in scope of AASB 15 and if the performance obligations proceeds required by an enforceable contract and they are sufficiently specific to enable the Entity to determine when they have been satisfied. In relation to AASB 1058, detail timing of recognition in regards to whether a transaction gives rise to a performance obligation, liability or contribution by owners. Also disclose the judgements, changes in judgements, in applying AASB 1058 that affect the determination of the amount and timing of income arising from transfers to enable the Entity to acquire or construct a non financial asset.]

The following is a description of principal activities from which the Entity generates its revenue: [Entity to provide details of products/services along with the nature, timing of satisfaction of performance obligations and significant payment terms. For performance obligations satisfied over time, disclose the methods used to recognise revenue and an explanation of why the methods used provide a faithful depiction of the transfer of goods or services. For performance obligations satisfied at a point in time, disclose the significant judgements made in evaluating when a customer obtains control of promised goods or services.]

The transaction price is the total amount of consideration to which the Entity expects to be entitled in exchange for transferring promised goods or services to a customer. The consideration promised in a contract with a customer may include fixed amounts, variable amounts, or both. [Entity to disclose whether practical expedient in AASB 15.121 is applied in the Entity's financial statements by providing qualitative explanation and whether any consideration from contracts with customers is not included in the transaction price].

Receivables for goods and services, which have 30 day terms, are recognised at the nominal amounts due less any impairment allowance account. Collectability of debts is reviewed at end of the reporting period. Allowances are made when collectability of the debt is no longer probable.

	20X2 \$'000	20X1 \$'000
<u>1.2B: Fees and fines</u>		
Fees	-	-
Fines	-	-
Total fees and fines	-	-
<u>1.2C: Interest</u>		
Loans	-	-
Leases	-	-
Deposits	-	-
Bills receivable	-	-
Total interest	-	-

Accounting Policy

Interest revenue is recognised using the effective interest method.

<u>1.2D: Dividends</u>		
International financial institutions	-	-
Subsidiary companies	-	-
Associates	-	-
Other	-	-
Total dividends	-	-
<u>1.2E: Rental income</u>		
Finance lease		
Selling profit or loss	-	-
Finance income	-	-
Variable lease payments income	-	-
Operating lease		
Investment properties ¹	-	-
Lease income	-	-
Variable lease payments income	-	-
Subleasing right-of-use assets	-	-
Total rental income	-	-

Finance Leases

[Disclose details of the nature of the lessor's leasing activities and how the lessor manages the risk associated with any rights it retains in underlying assets. In particular, a lessor shall disclose its risk management strategy for the rights it retains in underlying assets, including any means by which the lessor reduces that risk.]

[Disclose details of the significant changes in the carrying amount of the net investment in finance leases.]

Maturity analysis of finance lease receivables

	20X2 \$'000	20X1 \$'000
Within 1 year	-	-
One to two years	-	-
Two to three years	-	-
Three to four years	-	-

More than 5 years	-	-
Total undiscounted lease payments receivable	-	-
Unearned finance income	-	-
Discounted unguaranteed residual value	-	-
Net investment in leases	-	-

Operating Leases

[Disclose details of the nature of the lessor's leasing activities and how the lessor manages the risk associated with any rights it retains in underlying assets. In particular, a lessor shall disclose its risk management strategy for the rights it retains in underlying assets, including any means by which the lessor reduces that risk.]

Maturity analysis of operating lease income receivables:

	20X2 \$'000	20X1 \$'000
Within 1 year	-	-
One to two years	-	-
Two to three years	-	-
Three to four years	-	-
Four to five years	-	-
More than 5 years	-	-
Total undiscounted lease payments receivable	-	-

The above lease disclosures should be read in conjunction with the accompanying notes 1.1B, 1.1D, 1.1H, 1.2I, 3.2 and 3.4B.

	20X2 \$'000	20X1 \$'000
<u>1.2F: Other revenue</u>		
Royalties	-	-
Resources received free of charge		
Remuneration of auditors	-	-
[Disclose by service received]	-	-
Total other revenue	-	-

[The Entity is encouraged to disclose qualitative information about the nature of its dependence on volunteer services and inventories held but not recognised as assets by major class of transaction]

Accounting Policy

Resources Received Free of Charge

Resources received free of charge are recognised as revenue when, and only when, a fair value can be reliably determined and the services would have been purchased if they had not been donated. Use of those resources is recognised as an expense. Resources received free of charge are recorded as either revenue or gains depending on their nature.

Volunteer Services

On the initial recognition of volunteer services as an asset or an expense, the Entity recognises any related amounts in accordance with the relevant standard. The Entity recognises the excess of the fair value of the volunteer services over the recognised related amounts as income immediately in the income statement.

Gains

1.2G: Foreign exchange gains

Speculative	-	-
Non-speculative	-	-
Total foreign exchange gains	-	-

1.2H: Reversal of write-downs and impairments

Revaluation increments	-	-
Reversal of impairment losses	-	-
Total reversals of previous asset write-downs and impairments	-	-

	20X2 \$'000	20X1 \$'000
1.2I: Other gains		
Change in fair value of investment properties	-	-
Resources received free of charge		
[Disclose by asset class]	-	-
Gains arising from sale and leaseback of leases	-	-
Change in fair value through profit or loss	-	-
Other	-	-
Total other gains	-	-

The above lease disclosure should be read in conjunction with the accompanying notes 1.1B, 1.1D, 1.1H, 1.2E, 3.2 and 3.4B.

Accounting Policy

Resources Received Free of Charge

Contributions of assets at no cost of acquisition or for nominal consideration are recognised as gains at their fair value when the asset qualifies for recognition, unless received from another Government entity as a consequence of a restructuring of administrative arrangements (refer to Note 8.2).

Sale of Assets

Gains from disposal of assets are recognised when control of the asset has passed to the buyer. Simplification suggestion: Consider deleting sentence as circumstances for recording as revenue or gain are set out separately above.

1.2J: Revenue from Government

Appropriations		
Departmental appropriations	-	-
Departmental special appropriations	-	-
Other	-	-
Supplementation		
[Disclose portfolio department/relevant entity]		
Corporate Commonwealth entity payment item	-	-
Other	-	-
Total revenue from Government	-	-

Accounting Policy

Revenue from Government

Amounts appropriated for departmental appropriations for the year (adjusted for any formal additions and reductions) are recognised as Revenue from Government when the entity gains control of the appropriation, except for certain amounts that relate to activities that are reciprocal in nature, in which case revenue is recognised only when it has been earned. Appropriations receivable are recognised at their nominal amounts. Funding received or receivable from non-corporate Commonwealth entities (appropriated to the non-corporate Commonwealth entity as a corporate Commonwealth entity payment item for payment to this entity) is recognised as Revenue from Government by the corporate Commonwealth entity unless the funding is in the nature of an equity injection or a loan.

1.2K: Unsatisfied obligations

The Entity expects to recognise as income any liability for unsatisfied obligations associated with revenue from contracts with customers within the following periods:

[Disclose using timebands most appropriate for duration of remaining obligations or through qualitative information]

Other Comprehensive Income

	20X2 \$'000	20X1 \$'000
1.3A: Reclassification adjustments		
[Disclose by item of other comprehensive income]	-	-
Total reclassification adjustments¹	-	-

1. This amount previously recognised in other comprehensive income has been reclassified to net cost of services.

1.3B: Income tax relating to other comprehensive income

[Disclose by item of other comprehensive income]	-	-
Total income tax relating to other comprehensive income	-	-

Income and Expenses Administered on Behalf of Government

This section analyses the activities that [Entity] does not control but administers on behalf of the Government. Unless otherwise noted, the accounting policies adopted are consistent with those applied for departmental reporting.

2.1 Administered - Expenses

	20X2 \$'000	20X1 \$'000
2.1A: Employee benefits		
Wages and salaries	-	-
Superannuation	-	-
Defined contribution plans	-	-
Defined benefit plans	-	-
Leave and other entitlements	-	-
Separations and redundancies	-	-
Total employee benefits	-	-

Credit terms for goods and services were within [No.] days (20X1: [No.] days).

Loans to [disclose entity] were made under [disclose authority] for periods up to [No.] years. No security is generally required. Principal is repaid in full at maturity. Interest rates were fixed. Effective interest rates average [...%] (20X1: [...%]). Interest payments were due on [disclose date].

Accounting Policy

Financial assets

Trade receivables, loans and other receivables that are held for the purpose of collecting the contractual cash flows where the cash flows are solely payments of principal and interest, that are not provided at below-market interest rates, are subsequently measured at amortised cost using the effective interest method adjusted for any loss allowance.

Note: Financial assets measured at fair value through other comprehensive income are not reduced by an impairment loss account. This loss account should not be reported in the Statement of Financial Position separately, and should be disclosed in the notes. An additional disclosure will need to be included to meet this requirement as per AASB 7.16A.

Accounting Policy

The expected credit loss (ECL) model applies to financial assets measured at amortised cost, contract assets and debt instruments measured at fair value through other comprehensive income.

Trade and other receivable assets and contract assets at amortised cost are assessed for impairment at the end of each reporting period. The simplified approach has been adopted in measuring the impairment loss allowance at an amount equal to lifetime ECL.

Accounting Policy

Investments in Associates

The entity's investment in its associates is accounted for using the equity method.

Under the equity method, investments in the associates are carried in the entity's statement of financial position at cost as adjusted for post-acquisition changes in the entity's share of net assets of the associates. Goodwill relating to an associate is included in the carrying amount of the investment. After the application of the equity method, the entity determines whether it is necessary to recognise any impairment loss with respect to the net investment in associates. [AASB 128.23]

Jointly Controlled Entities

Interests in jointly controlled entities in which the entity is a venturer (and so has joint control) are accounted for using the equity method.

Accounting Policy

Assets are recorded at cost on acquisition except as stated below. The cost of acquisition includes the fair value of assets transferred in exchange and liabilities undertaken. Financial assets are initially measured at their fair value plus transaction costs where appropriate.

Assets acquired at no cost, or for nominal consideration, are initially recognised as assets and income at their fair value at the date of acquisition, unless acquired as a consequence of restructuring of administrative arrangements. In the latter case, assets are initially recognised as contributions by owners at the amounts at which they were recognised in the transferor's accounts immediately prior to the restructuring.

Asset Recognition Threshold

Purchases of property, plant and equipment are recognised initially at cost in the statement of financial position, except for purchases costing less than [\$...], which are expensed in the year of acquisition (other than where they form part of a group of similar items which are significant in total).

The initial cost of an asset includes an estimate of the cost of dismantling and removing the item and restoring the site on which it is located. This is particularly relevant to 'make good' provisions in [...] taken up by the entity where there exists an obligation to [...]. These costs are included in the value of the entity's [...] with a corresponding provision for the 'make good' recognised.

Lease Right of Use (ROU) Assets

Leased ROU assets are capitalised at the commencement date of the lease and comprise of the initial lease liability amount, initial direct costs incurred when entering into the lease less any lease incentives received. These assets are accounted for by Commonwealth lessees as separate asset classes to corresponding assets owned outright, but included in the same column as where the corresponding underlying assets would be presented if they were owned.

On initial adoption of AASB 16 the [entity] has adjusted the ROU assets at the date of initial application by the amount of any provision for onerous leases recognised immediately before the date of initial application. Following initial application, an impairment review is undertaken for any right of use lease asset that shows indicators of impairment and an impairment loss is recognised against any right of use lease asset that is impaired. Lease ROU assets continue to be measured at cost after initial recognition in Commonwealth agency, GGS and Whole of Government financial statements.

Revaluations

Following initial recognition at cost, property, plant and equipment (**excluding ROU assets**) are carried at fair value (or an amount not materially different from fair value) less subsequent accumulated depreciation and accumulated impairment losses. Valuations are conducted with sufficient frequency to ensure that the carrying amounts of assets did not differ materially from the assets' fair values as at the reporting date. The regularity of independent valuations depended upon the volatility of movements in market values for the relevant assets.

Revaluation adjustments are made on a class basis. Any revaluation increment is credited to equity under the heading of asset revaluation reserve except to the extent that it reversed a previous revaluation decrement of the same asset class that was previously recognised in the surplus/deficit. Revaluation decrements for a class of assets are recognised directly in the surplus/deficit except to the extent that they reversed a previous revaluation increment for that class.

Any accumulated depreciation as at the revaluation date is [select one of the following]:

- eliminated against the gross carrying amount of the asset and the asset restated to the revalued amount; or
- restated proportionately with the change in the gross carrying amount of the asset so that the carrying amount of the asset after revaluation equals its revalued amount.

Depreciation

Depreciable property, plant and equipment assets are written-off to their estimated residual values over their estimated useful lives to the entity using, in all cases, the straight-line method of depreciation.

Depreciation rates (useful lives), residual values and methods are reviewed at each reporting date and necessary adjustments are recognised in the current, or current and future reporting periods, as appropriate.

Depreciation rates applying to each class of depreciable asset are based on the following useful lives:

	20x2	20x1
Buildings on freehold land	[no.] years	[no.] years
Leasehold improvements	[e.g. Lease terms]	[e.g. Lease terms]
Plant and equipment	[No.] to [No.] years	[No.] to [No.] years

The entity has items of property, plant and equipment that are heritage and cultural assets that have limited useful lives and are depreciated.

The depreciation rates for ROU assets are based on the commencement date to the earlier of the end of the useful life of the ROU asset or the end of the lease term.

Accounting Policy (continued)

Impairment

All cash-generating assets and assets held at cost, including intangibles and ROU assets, were assessed for impairment at 30 June 20x2. Where indications of impairment exist, the asset's recoverable amount is estimated and an impairment adjustment made if the asset's recoverable amount is less than its carrying amount. For non-cash generating assets held at fair value, the recoverable amount is expected to be materially the same as fair value at 30 June 20x2.

[Note: Applies to not-for-profit entities only per AASB 136 Aus5.1]

The recoverable amount of an asset is the higher of its fair value less costs of disposal and its value in use. Value in use is the present value of the future cash flows expected to be derived from the asset. Where the future economic benefit of an asset is not primarily dependent on the asset's ability to generate future cash flows, and the asset would be replaced if the entity were deprived of the asset, its value in use is taken to be its depreciated replacement cost.

Derecognition

An item of property, plant and equipment is derecognised upon disposal or when no further future economic benefits are expected from its use or disposal.

Heritage and Cultural Assets

[Description of heritage and cultural assets]

[Curatorial and preservation policies for heritage and cultural assets or a cross reference to publicly available publication]

Intangibles

The entity's intangibles comprise internally developed software for internal use. These assets are carried at cost less accumulated amortisation and accumulated impairment losses.

Software is amortised on a straight-line basis over its anticipated useful life. The useful lives of the entity's software are [No.] to [No.] years (20x1: [No.] to [No.] years).

All software assets were assessed for indications of impairment as at 30 June 20X2.

Accounting Judgements and Estimates

[Disclose by details]

	20X2	20X1
	\$'000	\$'000
3.2B: Investment property		
As at 1 July	-	-
Additions		
Purchase or internally developed	-	-
Finance lease	-	-
Donation/Gift	-	-
Acquisition of entities or operations (including restructuring)	-	-
Disposals and property held for sale	-	-
Net gains/(losses) from fair value adjustments	-	-
Net foreign currency exchange differences	-	-
Transfers	-	-
Other changes	-	-
Total as at 30 June	-	-

Rental income from investment properties was [\$...] (20X1: [\$...]). Operating expenses in relation to these properties were [\$...] (20X1: [\$...]). An additional [\$...] (20X1: [\$...]) of operating expenses were incurred for investment properties that did not earn rental income during the period.

Accounting Policy

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at fair value. Gains or losses arising from changes in the fair values of investment properties are recognised in profit or loss in the year in which they arise.

Where an investment property is acquired at no cost or for nominal cost, its cost is deemed to be its fair value as at the date of acquisition.

Investment properties are derecognised either when they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gain or losses on disposal of an investment property are recognised in profit or loss in the year of disposal.

Accounting Judgements and Estimates

3.2C: Inventories		
Inventories held for sale		
Work in progress	-	-
Finished goods	-	-
Total inventories held for sale	-	-
Inventories held for distribution	-	-
Total inventories	-	-

During 20X2, [\$...] of inventory held for sale was recognised as an expense (20X1: [\$...]).

During 20X2, [\$...] of inventory held for distribution was recognised as an expense (20X1: [\$...]).

[Disclose whether any items of inventory were recognised at fair value less cost to sell]

[Disclose whether all inventories are expected to be sold or distributed in the next 12 months]

Accounting Policy

Inventories held for sale are valued at the lower of cost and net realisable value.

Inventories held for distribution are valued at cost, adjusted for any loss of service potential.

Costs incurred in bringing each item of inventory to its present location and condition are assigned as follows:

- a) raw materials and stores – purchase cost on a first-in-first-out basis; and
- b) finished goods and work-in-progress – cost of direct materials and labour plus attributable costs that can be allocated on a reasonable basis.

Inventories acquired at no cost or nominal consideration are initially measured at current replacement cost at the date of acquisition.

The [Entity] in its capacity as lessee [disclose descriptions and details of significant leasing arrangements (including basis on which contingent rental is payable, variable lease payments, existence of renewal or purchase options and escalation clauses and/or restrictions imposed).]

The [Entity] in its capacity as lessee has [disclose descriptions and details of each individual significant leasing arrangement with below market terms (including dependence on lease, lease payments, terms, description of underlying assets, explanation of the consequences e.g. are carried at cost, and/or restrictions imposed).]

The above lease disclosures should be read in conjunction with the accompanying notes 1.1B, 1.1D, 1.1H, 1.2E, 1.2I and 3.2.

20X2 20X1
\$'000 \$'000

Accounting Policy

Leases

For all new contracts entered into, the [Entity] considers whether the contract is, or contains a lease. A lease is defined as 'a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration'.

Once it has been determined that a contract is, or contains a lease, the lease liability is initially measured at the present value of the lease payments unpaid at the commencement date, discounted using the interest rate implicit in the lease, if that rate is readily determinable, or the department's incremental borrowing rate.

Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification to the lease. When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset or profit and loss depending on the nature of the reassessment or modification.

Accounting Policy***Administered Investments***

Administered investments in subsidiaries, joint ventures and associates are not consolidated because their consolidation is relevant only at the Whole of Government level.

Administered investments other than those held for sale are classified as at amortised cost and are measured at their fair value as at 30 June 20x2. Fair value has been taken to be the Australian Government's proportional interest in the net assets of the entities as at end of reporting period.

The [Entity] in its capacity as lessee [disclose descriptions and details of significant leasing arrangements (including basis on which contingent rental is payable, variable lease payments, existence of renewal or purchase options and escalation clauses and/or restrictions imposed).]

The [Entity] in its capacity as lessee has [disclose descriptions and details of each individual significant leasing arrangement with below market terms (including dependence on lease, lease payments, terms, description of underlying assets, explanation of the consequences e.g. are carried at cost, and/or restrictions imposed).]

The above lease disclosures should be read in conjunction with the accompanying notes 2.1B, 2.1F, 2.1K, 2.2H, 2.2L and 4.2.

Accounting Policy***Guarantees to Subsidiaries, Joint Ventures and Associates***

The amounts guaranteed by the Commonwealth have been disclosed above. At the time of completion of the financial statements, there was no reason to believe that the guarantees would be called upon, and recognition of a liability was therefore not required. The guarantees are in relation to lease obligations and are measured at the present value of future lease payments.

5.4 Net Cash Appropriation Arrangements

	20X2 \$'000	20X1 \$'000
Total comprehensive income/(loss) - as per the Statement of Comprehensive Income	-	-
Plus : depreciation/amortisation of assets funded through appropriations (departmental capital budget funding and/or equity injections) ¹	-	-
Plus : depreciation of right-of-use assets ²	-	-
Less : lease principal repayments ²	-	-
Net Cash Operating Surplus/ (Deficit) ³	-	-

{For entities receiving DCB Funding}

1. From 2010-11, the Government introduced net cash appropriation arrangements where revenue appropriations for depreciation/amortisation expenses of non-corporate Commonwealth entities and selected corporate Commonwealth entities were replaced with a separate capital budget provided through equity appropriations. Capital budgets are to be appropriated in the period when cash payment for capital expenditure is required.

[disclose reasons for amounts of depreciation/amortisation expenses that are excluded from this calculation and the assets/functions they relate to]

{For entities receiving CDAB Funding}

[disclose the type of assets/functions to which the depreciation/amortisation expenses are related and reasons]

2. The inclusion of depreciation/amortisation expenses related to ROU leased assets and the lease liability principal repayment amount reflects the impact of AASB 16 Leases, which does not directly reflect a change in appropriation arrangements.

[disclose reasons for amounts of right-of-use assets and lease principal repayments that are excluded from this calculation]

[Guidance note:

An entity is required to prepare this note if:

- it receives DCB/ CDAB funding or equity injections through appropriations to fund asset purchases and replacements; and/or
- it is a lessee with right-of-use assets and lease liabilities.

For assets funded through external revenue sources including cost recovery, depreciation/amortisation of these assets are excluded from this calculation.

For depreciation of right-of-use assets and lease principal repayments, if the expense is recovered through cost recovery, it is excluded from this calculation.]

5.5 Cash Flow Reconciliation

Other	-	-
Total employee provisions	-	-
Employee provisions expected to be settled		
No more than 12 months	-	-
More than 12 months	-	-
Total employee provisions	-	-

Accounting policy

Liabilities for short-term employee benefits and termination benefits expected within twelve months of the end of reporting period are measured at their nominal amounts.

Other long-term employee benefits are measured as net total of the present value of the defined benefit obligation at the end of the reporting period minus the fair value at the end of the reporting period of plan assets (if any) out of which the obligations are to be settled directly.

Leave

The liability for employee benefits includes provision for annual leave and long service leave.

The leave liabilities are calculated on the basis of employees' remuneration at the estimated salary rates that will be applied at the time the leave is taken, including the entity's employer superannuation contribution rates to the extent that the leave is likely to be taken during service rather than paid out on termination.

The liability for long service leave has been determined by reference to the work of an actuary as at 30 June 20X2. The estimate of the present value of the liability takes into account attrition rates and pay increases through promotion and inflation.

Separation and Redundancy

Provision is made for separation and redundancy benefit payments. The entity recognises a provision for termination when it has developed a detailed formal plan for the terminations and has informed those employees affected that it will carry out the terminations.

Superannuation

The entity's staff are members of the Commonwealth Superannuation Scheme (CSS), the Public Sector Superannuation Scheme (PSS), or the PSS accumulation plan (PSSap), or other superannuation funds held outside the Australian Government.

The CSS and PSS are defined benefit schemes for the Australian Government. The PSSap is a defined contribution scheme.

The liability for defined benefits is recognised in the financial statements of the Australian Government and is settled by the Australian Government in due course. This liability is reported in the Department of Finance's administered schedules and notes.

The entity makes employer contributions to the employees' defined benefit superannuation scheme at rates determined by an actuary to be sufficient to meet the current cost to the Government. The entity accounts for the contributions as if they were contributions to defined contribution plans.

The liability for superannuation recognised as at 30 June represents outstanding contributions.

Accounting Judgements and Estimates

[Disclose by details]

6.2 Key Management Personnel Remuneration

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any director (whether executive or otherwise) of that entity. The entity has determined the key management personnel to be the Director/Chief Executive/Secretary and XX Directors/Executive Officers/General Managers/Deputy Secretaries. Key management personnel remuneration is reported in the table below:

	20X2	20X1
	\$'000	\$'000
Short-term employee benefits	-	-
Post-employment benefits	-	-
Other long-term employee benefits	-	-
Termination benefits	-	-
Total key management personnel remuneration expenses¹	-	-

The total number of key management personnel that are included in the above table are [disclose no. of key management personnel] (20X1: [disclose no. of key management personnel]).

1. The above key management personnel remuneration excludes the remuneration and other benefits of the Portfolio Minister. The Portfolio Minister's remuneration and other benefits are set by the Remuneration Tribunal and are not paid by the entity.

6.3 Related Party Disclosures

Related party relationships:

The entity is an Australian Government controlled entity. Related parties to this entity are Directors <corporates>, Key Management Personnel (KMP) including the Portfolio Minister <non-corporates> and Executive, and other Australian Government entities.

Transactions with related parties:

Given the breadth of Government activities, related parties may transact with the government sector in the same capacity as ordinary citizens. Such transactions include the payment or refund of taxes, receipt of a Medicare rebate or higher education loans. These transactions have not been separately disclosed in this note. **(Delete or modify as required giving consideration to materiality)**

The following transactions with related parties occurred during the financial year:

- Grants were made to [disclose name of grantee], which is wholly owned by a KMP. They were approved under [disclose details] and were made on normal terms and conditions. The KMP involved took no part in the relevant executive decisions of the board. There is no balance outstanding at year end.

- The entity transacts with other Australian Government controlled entities consistent with normal day-to-day business operations provided under normal terms and conditions, including the payment of workers compensation and insurance premiums <describe other types of ordinary operational transactions as required>. These are not considered individually significant to warrant separate disclosure as related party transactions. <Provide further disclosure for significant transactions as required.>

- Refer to Note xx Employee Provisions for details on superannuation arrangements with the Commonwealth Superannuation Scheme (CSS), the Public Sector Superannuation Scheme (PSS), and the PSS accumulation plan (PSSap).

or

Significant transactions with related parties can include:

- the payments of grants or loans;
- purchases of goods and services;
- asset purchases, sales transfers or leases;
- debts forgiven; and
- guarantees.

Giving consideration to relationships with related entities, and transactions entered into during the reporting period by the entity, it has been determined that there are no related party transactions to be separately disclosed.

Disclosure of transactions with related parties is required to include comparatives (AASB 124.32 and AASB 101).

Note: Entities should consider materiality when determining significant transactions requiring disclosure.

Managing uncertainties

This section analyses how the [entity] manages financial risks within its operating environment.

7.1A: Contingent assets and liabilities

	Guarantees		Indemnities		Claims for damages or costs		Total	
	20X2 \$'000	20X1 \$'000	20X2 \$'000	20X1 \$'000	20X2 \$'000	20X1 \$'000	20X2 \$'000	20X1 \$'000

Net contingent assets/(liabilities)							-	-

During 20X2, the entity gave a financial guarantee to [disclose entity].

Quantifiable Contingencies

The above table contains [\$.] of contingent liabilities disclosed in respect to [disclose item] (20X1: [\$.]). The amount represents an estimate of the entity's liability based on [disclose basis of estimate].

The table also contains [\$.] of contingent assets in respect to [disclose item] (20X1: [\$.]). The entity is expecting [disclose expected outcome]. The estimate is based on [disclose basis of estimate].

Unquantifiable Contingencies

At 30 June 20X2, the entity had [disclose details of unquantifiable contingencies]. It was not possible to estimate the amounts of any eventual payments that may be required in relation to these claims. These were not included in the above table.

Accounting Policy

Contingent liabilities and contingent assets are not recognised in the statement of financial position but are reported in the notes. They may arise from uncertainty as to the existence of a liability or asset or represent an asset or liability in respect of which the amount cannot be reliably measured. Contingent assets are disclosed when settlement is probable but not virtually certain and contingent liabilities are disclosed when settlement is greater than remote.

Accounting Judgements and Estimates

Quantifiable Administered Contingencies

The above table contains [\$....] of contingent liabilities in respect to [disclose item] (20X1: [\$....]). The amount represents an estimate of the entity's liability based on [disclose basis of estimate].

The table also contains contingent assets in respect to [disclose item] of [\$....] (20X1: [\$....]). The entity is expecting [disclose expected outcome]. The estimate is based on [disclose basis of estimate].

Unquantifiable Administered Contingencies

At 30 June 20X2, the entity administered [disclose detail of unquantifiable administered contingencies]. It was not possible to estimate the amounts of any eventual payments that may be required in relation to these claims. These were not included in the above table.

Accounting Policy

Indemnities and/or guarantees

The maximum amounts payable under the indemnities given is disclosed above. The guarantees are in relation to lease obligations and are measured at the present value of future lease payments. At the time of completion of the financial statements, there was no reason to believe that the indemnities and/or guarantees would be called upon, and no recognition of any liability was therefore required.

Accounting Policy

Financial assets

In accordance with AASB 9 *Financial Instruments*, the entity classifies its financial assets in the following categories:

- a) financial assets at fair value through profit or loss;
- b) financial assets at fair value through other comprehensive income; and
- c) financial assets measured at amortised cost.

The classification depends on both the entity's business model for managing the financial assets and contractual cash flow characteristics at the time of initial recognition. Financial assets are recognised when the entity becomes a party to the contract and, as a consequence, has a legal right to receive or a legal obligation to pay cash and derecognised when the contractual rights to the cash flows from the financial asset expire or are transferred upon trade date.

Financial Assets at Amortised Cost

Financial assets included in this category need to meet two criteria:

1. the financial asset is held in order to collect the contractual cash flows; and
2. the cash flows are solely payments of principal and interest (SPPI) on the principal outstanding amount.

Amortised cost is determined using the effective interest method.

Effective Interest Method

Income is recognised on an effective interest rate basis for financial assets that are recognised at amortised cost.

Financial Assets at Fair Value Through Other Comprehensive Income (FVOCI)

Financial assets measured at fair value through other comprehensive income are held with the objective of both collecting contractual cash flows and selling the financial assets and the cash flows meet the SPPI test.

Any gains or losses as a result of fair value measurement or the recognition of an impairment loss allowance is recognised in other comprehensive income.

Financial Assets at Fair Value Through Profit or Loss (FVTPL)

Financial assets are classified as financial assets at fair value through profit or loss where the financial assets either doesn't meet the criteria of financial assets held at amortised cost or at FVOCI (i.e. mandatorily held at FVTPL) or may be designated.

Financial assets at FVTPL are stated at fair value, with any resultant gain or loss recognised in profit or loss. The net gain

or loss recognised in profit or loss incorporates any interest earned on the financial asset.

Impairment of Financial Assets

Financial assets are assessed for impairment at the end of each reporting period based on Expected Credit Losses, using the general approach which measures the loss allowance based on an amount equal to *lifetime expected credit losses* where risk has significantly increased, or an amount equal to *12-month expected credit losses* if risk has not increased.

The simplified approach for trade, contract and lease receivables is used. This approach always measures the loss allowance as the amount equal to the lifetime expected credit losses.

A write-off constitutes a derecognition event where the write-off directly reduces the gross carrying amount of the financial asset.

Financial liabilities

Financial liabilities are classified as either financial liabilities 'at fair value through profit or loss' or other financial liabilities. Financial liabilities are recognised and derecognised upon 'trade date'.

Financial Liabilities at Fair Value Through Profit or Loss

Financial liabilities at fair value through profit or loss are initially measured at fair value. Subsequent fair value adjustments are recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any interest paid on the financial liability.

Financial Liabilities at Amortised Cost

Financial liabilities, including borrowings, are initially measured at fair value, net of transaction costs. These liabilities are subsequently measured at amortised cost using the effective interest method, with interest expense recognised on an effective interest basis.

Supplier and other payables are recognised at amortised cost. Liabilities are recognised to the extent that the goods or services have been received (and irrespective of having been invoiced).

7.2K: Market risk

Currency risk

Currency risk refers to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. [Disclose entity's name] is exposed to foreign exchange currency risk primarily through undertaking certain transactions denominated in foreign currency.

[Disclose entity's name] is exposed to foreign currency denominated in [disclose exposed currency].

The method used to arrive at the possible risk of [disclose FX rate] was based on both statistical and non-statistical analyses. The statistical analysis has been based on main currencies movement for the last five years. The five main currencies [disclose entity's name] has exposure to are [disclose exposed currencies]. This information is then revised and adjusted for reasonableness under the current economic circumstances.

Interest rate risk

Interest rate risk refers to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. [Disclose entity's name] is exposed to interest rate risk primarily from [disclose class of financial instrument].

A [disclose interest rate sensitivity analysis standardised rate] basis point change is deemed to be reasonably possible and is used when reporting interest rate risk.

The method used to arrive at the possible risk of [disclose interest rate sensitivity analysis standardised rate] basis points was based on both statistical and non-statistical analysis. The statistical analysis has been based on the 10-year Australian Government daily bond yields issued by the Reserve Bank of Australia (RBA) as the underlying dataset. This information is then revised and adjusted for reasonableness under the current economic circumstances.

Sensitivity analysis of the risk that the entity is exposed to for 20X2

7.3K: Market risk

Currency risk

Currency risk refers to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. [Disclose entity's name] is exposed to foreign exchange currency risk primarily through undertaking certain transactions denominated in foreign currency.

[Disclose entity's name] is exposed to foreign currency denominated in [disclose exposed currency].

The method used to arrive at the possible risk of [disclose FX rate] was based on both statistical and non-statistical analyses. The statistical analysis has been based on main currencies movement for the last five years. The five main currencies [disclose entity's name] has exposure to are [disclose exposed currencies]. This information is then revised and adjusted for reasonableness under the current economic circumstances.

Interest rate risk

Interest rate risk refers to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. [Disclose entity's name] is exposed to interest rate risk primarily from [disclose class of financial instrument].

A [disclose interest rate sensitivity analysis standardised rate] basis point change is deemed to be reasonably possible and is used when reporting interest rate risk.

The method used to arrive at the possible risk of [disclose interest rate sensitivity analysis standardised rate] basis points was based on both statistical and non-statistical analysis. The statistical analysis has been based on the cash rate for the past five years issued by the Reserve Bank of Australia (RBA) as the underlying dataset. This information is then revised and adjusted for reasonableness under the current economic circumstances.

Sensitivity analysis of the risk that the entity is exposed to for 20X2

	Risk Variable	Change in risk variable %	Effect on	
			Net cost of services \$'000	Equity \$'000
Currency risk	- [+ Rate]		-	-
Currency risk	- [- Rate]		-	-
Interest rate risk	- [+ Rate]		-	-
Interest rate risk	- [- Rate]		-	-
Other price risk	- [+ Rate]		-	-
Other price risk	- [- Rate]		-	-

Sensitivity analysis of the risk that the entity is exposed to for 20X1

	Risk Variable	Change in risk variable %	Effect on	
			Net cost of services \$'000	Equity \$'000
Currency risk		- [+ Rate]	-	-
Currency risk		- [- Rate]	-	-
Interest rate risk		- [+ Rate]	-	-
Interest rate risk		- [- Rate]	-	-
Other price risk		- [+ Rate]	-	-
Other price risk		- [- Rate]	-	-

[Disclose details and reasons if the sensitivity analysis is not representative of the risk inherent in a financial instrument]

1. [Disclose terms and conditions of collateral held]

[Disclose fair value of collateral sold or re-pledged, and whether the entity has an obligation to return it]

2. [Disclose terms and conditions of collateral held]

[Disclose fair value of collateral sold or re-pledged, and whether the entity has an obligation to return it]

7.4 Fair Value Measurement

The following tables provide an analysis of assets and liabilities that are measured at fair value. The remaining assets and liabilities disclosed in the statement of financial position do not apply the fair value hierarchy.

The different levels of the fair value hierarchy are defined below.

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Unobservable inputs for the asset or liability.

Accounting Policy

[Disclose description of the valuation policy, including how the entity decides its valuation policies and procedures and analyses changes in fair value measurements from period to period. Such items might include the frequency and methods for testing procedures of pricing models; the process for analysing changes in fair value measurements from period to period; how the entity determined that third-party information used in the fair value measurement was developed in accordance with AASB 13; and the methods used to develop and substantiate the unobservable inputs used in a fair value measurement..]

[Disclose entities policies for determining when transfers between levels are deemed to occur]

7.4A: Fair value measurement

		Fair value measurements at the end of the reporting period			
		20X2 \$'000	20X1 \$'000	Category (Level 1, 2 or 3) ^{3,4}	
					Valuation Technique(s) and Inputs Used
Financial assets				[If there are multiple categories within a class	[Only required for level 2 and level 3 - Should include description of technique including inputs used (observable and unobservable) and any changes in valuation technique (including reason for change)]
	[Disclose by class, with recurring and non-recurring fair value measurements on separate lines] ¹	-	-		
Non-financial assets ²				entities should disclose each applicable category and the fair value amount for each on separate lines (where material)]	[For recurring fair value measurement within level 3, where applicable, include a sensitivity analysis e.g. Significant increases (decreases) in any of the inputs in isolation would result in a significantly lower (higher) fair value measurement. Generally, a change in the assumption used for [disclose interrelated significant unobservable input] is accompanied by a directionally [similar/opposite] change in the assumption used for [disclose interrelated significant unobservable input].]
	[Disclose by class, with recurring and non-recurring fair value measurements on separate lines] ¹	-	-		
Financial liabilities					
	[Disclose by class, with recurring and non-recurring fair value measurements on separate lines] ¹	-	-		
Non-financial liabilities					
	[Disclose by class, with recurring and non-recurring fair value measurements on separate lines] ¹	-	-		

1. [Disclose reasons for the measurement for non-recurring fair value measurements.]

2. [Disclose class of NFA]'s highest and best use differs from its current use due to [disclose reasons why the NFA is being used in a manner that differs from its highest and best use] (20X1: [...]).

3. [Disclose class and amount] was transferred from [Level 1/Level 2] to [Level 2/Level 1] due to [disclose reasons for transfer].

4. The remaining assets and liabilities reported by the [entity] are not measured at fair value in the Statement of Financial Position.

7.4B: Reconciliation for recurring level 3 fair value measurements
