FOR PUMICESTONE

## WORKING TOGETHER FOR QUEENSLAND

Dear Householder

### STATE ELECTION - POSTAL VOTING INFORMATION

In the coming weeks you'll be required to make a decision about Queensland's future. The choice you make will be very important.

The Palaszczuk Government's strong leadership has kept Queenslanders safe throughout the COVID-19 global pandemic and allowed us to start on the road to economic recovery.

Labor's priority is creating jobs for Queenslanders, but there is still a lot more work to be done, and we can't risk a second wave.

Ali King, as Labor's Candidate for Pumicestone, will work with Premier Palaszczuk to roll out our local recovery plan while keeping Queenslanders safe, supporting small businesses and getting people back to work.

Locally, our plan includes;

- Air-conditioning for every local State school** is underway now, including solar panels and a guarantee to cover all maintenance and replacement costs
- Massive Caboolture Hospital redevelopment**, with a new five story clinical services building, 130 new beds and supporting 650 jobs.
- A better, safer Bribie Island Road**, with the Old Toorbul Point Rd intersection upgrade happening now and more starting soon
- Supporting small businesses** to help them recover with \$200 million in grants

Premier Palaszczuk has been working hard every day to keep our community safe, and with Ali King in Pumicestone, we can keep working hard to help our community recover from COVID-19.

Kind regards

**Murray Watt**  
**Senator for Queensland**

Dear Householder

### STATE ELECTION - POSTAL VOTING INFORMATION

In the coming weeks you'll be required to make a decision about Queensland's future. The choice you make will be very important.

The Palaszczuk Government's strong leadership has kept Queenslanders safe throughout the COVID-19 global pandemic and allowed us to start on the road to economic recovery.

As a border community that relies on tourism, we know that it's important to get COVID recovery right. We are in the front line of stopping the spread from the southern states, but it also makes life harder for all of us who live here.

Together with Premier Palaszczuk, we will continue the job to keep us safe, as well as ensuring our community's hard work is valued and protected. Our local recovery plan includes:

-  **Protecting the places we love** by making sure our recovery plan keeps our community strong and places like the World Surf Reserve stay protected.
-  **Continue to improve our transport infrastructure**, completing the M1 upgrade, adding dedicated cycle ways and completing the Airport access upgrade.
-  **Supporting our local small businesses** with \$200 million in funding to help them recover and grow.

Premier Palaszczuk has been working hard every day to keep our community safe, and with Kaylee Campradt in Currumbin, we can keep working hard to help our community recover from COVID-19.

Kind regards

The Palaszczuk Government's strong leadership has kept Queenslanders safe throughout the COVID-19 global pandemic and allowed us to start on the road to economic recovery.

Labor's priority is creating jobs for Queenslanders, but there is still a lot more work to be done, and we can't risk a second wave.

Tracey Bell, as Labor's Candidate for Theodore, will work with Premier Palaszczuk to roll out our local recovery plan while keeping Queenslanders safe, supporting small businesses and getting people back to work. Locally, our plan includes;

-  **Fixing the M1** by investing \$25 million to upgrade Exit 57 and widening the M1 to 6 lanes from Brisbane to Tugun, **creating over 2000 jobs**.
-  **Building Helensvale North Station** as part of our plan to build 3 new stations on the Gold Coast, **creating 120 jobs**.
-  **Supporting our local schools** by investing an additional \$220 million in educational infrastructure projects that will create world-class facilities and **create jobs for tradies**.

Premier Palaszczuk has been working hard every day to keep our community safe, and with Tracey Bell in Theodore, we can keep working hard to help our community recover from COVID-19.
