Hi s22

Thank you for your email. We will arrange with s22 an appropriate time for COMCAR representatives to attend your premises for handover of the vehicles.

On the issue of charging, I am confident we can work with the different alternatives to suit our needs during the week. I note s47 has advised in his response to questions that we posed that we are welcome to make use of the s47 at Majura and I assume from that an s47 has been established.

I am looking forward to this next stage of our assessment and appreciate your assistance with the coordination of these vehicles.

Regards

Dean

Hi Dean

All vehicles confirmed per the table below.

Please note I'm on leave Friday and Monday. For any queries Friday s22 is the best contact - s22 @sgfleet.com. On Monday s22 will coordinate the handover of vehicles to COMCAR representatives - s22 @sgfleet.com. I will also have my mobile on me just in case - s22

I spoke to Andi earlier regarding charging. The BMW's will have RFID cards included. Hyundai/Genesis will not and I have not received confirmation on the others. We would generally order some Chargefox RFID cards but these would not arrive in time for next week. Accordingly, we are happy to help co-ordinate the use of our fast charger (located at the front of our premises) as well as our two wall chargers located in our warehouse for use by COMCAR as required.

SEC=UNOFFICIAL

Good afternoon S22

I would first like to thank you and your team for your assistance and involvement in discussions we have been undertaking to inform our future fleet decisions.

As you are aware the next phase of our assessment will involve among other things testing selected vehicles at the TISC driver training facility and will include testing vehicle functions under normal driving conditions on a closed track and assessment of the physical specifications against COMCAR's operational requirements at the ACT COMCAR Depot and on the roads around Canberra. This will take place next week from Monday 26 September through to Friday 30 September.

In correspondence to manufacturers following initial meetings we notified them of this proposed next phase of assessment and asked if they could make selected models available to COMCAR for testing on these dates and I would appreciate SG Fleet's assistance to coordinate this process.

The vehicles COMCAR is seeking to have available for the week of 26 September includes

- BMW iX3 and iX xDrive40
- Genesis GV60 and GV70
- Hyundai IONIQ 5
- KIA EV6
- Polestar 2
- Tesla Model Y

I propose that a handover of vehicles from SG Fleet to COMCAR could occur on Monday 26 September and COMCAR would return the vehicles to SG Fleet by Friday 30 September.

Some manufacturers also offered representatives that could be available to attend the assessment day at TISC on 28 September to address any technical questions. Whilst this offer is appreciated, COMCAR would prefer instead that contact details are provided for a representative whom we could get in touch with should there be any questions.

Please let me know if you require any further information.

Regards

Dean
