Hi s22

As recently discussed, draft refurb plans which include the key security measure of interview room off reception, are sitting with the office manager. We regularly touch base to see if any progress as he advises that's it's been extremely difficult to get time to discuss with the PM.

The front gate is locked during protests, however also worth noting they keep the front entrance to the office locked at all times so are not accepting walk in visitors.

All other recommendations made by Home Affairs from last assessment i.e. access control upgrade have been completed.

The back gate has been referred to as well, as it has been difficult in the past to get out in the event of a protest. The property is owned by the adjacent church who may allow us to make improvements.

AFP SPDL office has offered to look at this with me next week.

Many thanks

s22

Hi s22

As briefly discussed, the Prime Minister's office was briefly mentioned at last the fortnightly meeting (last week) between Home Affairs and the Security team, and I attend as well.

Clarification was sought from Home Affairs on the status and scope of the refurbishment, as the indicated that there may have been security upgrades and/or layout changes to improve lines of sight etc.

They also asked about how the gate(s) were being used during the frequent protest events.

When you are able to, could you please provide us with very brief update on both.

Many thanks
